

# BYTE BACK

*Byte Back's mission is to improve economic opportunity for low-income residents of the Washington DC area by providing computer training and employment readiness skills.*

**Dear Friend,**

Friendly Reminder, today residents of the Greater Washington area will buzz with online giving to their favorite nonprofits. It is Give to the Max Day: Greater Washington.

Every donation and new donor that Byte Back gets will help us toward our goal of claiming the \$25,000 grand prize.

This is going to be a big event, and everyone will be talking about who they're supporting. Just think: you can help Byte Back to gain enough support to train many more low-income residents for jobs that pay living wages.

Please assist us with these three things:

- 1) Make a donation – whatever amount you can – [click here](#)
- 2) Spread the word! Forward this email to your family and friends along with a personal note as to why you believe in our work, and why they should give on November 9th.
- 3) Follow us on Facebook [click here](#) and help build the buzz by commenting on our work.

Please be a Byte Back champion, and help unemployed District residents gain skills and jobs!

Sincerely,

Kelley Ellsworth

Executive Director
